

INSULATION MATTRESSES

MATECO 200

- MATECO® 200 is made of high quality technical fabrics : polyurethane coated glass fabric and glass wool.
- It's waterproof and it has a good mechanical resistance.
- It is classified according to Official Fire resistance standard (Incombustible), and it resists continuous temperatures up to 200°C.
- It's flexible, removable and customizable with your logo and contact details.

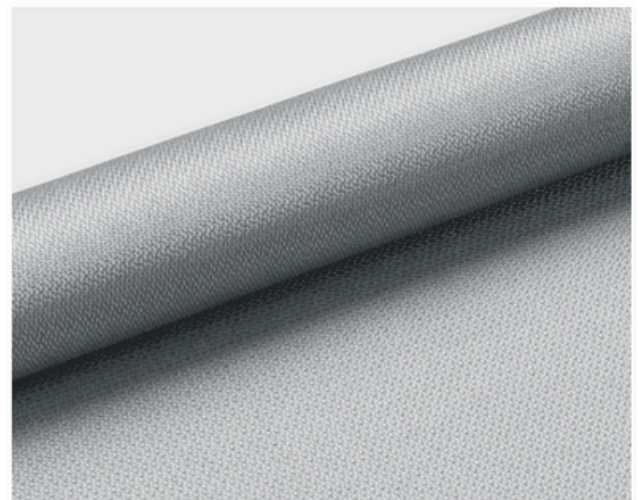

1. – Glasswool

Technical Features	Unit	Values	Standards
